

Dear Landmark Owner,

I am delighted to share the great news that Landmark was awarded best in category and gold award for Residential Maintenance by the NSW & ACT Master Landscapers Association. This award confirms what we have always known i.e., Landmark grounds and gardens are an outstanding asset.

Congratulations to our incumbent gardeners, Green Options, who have done a super job over the past two and a half years remediating our gardens after a long dry spell and the devastating hailstorm of January 2020. Our thanks and congratulations are also to Outscapes Horticultural Solutions who for most of Landmark's first sixteen years developed, improved and maintained our extensive grounds and gardens.

Our sincere thanks also extend to the many Landmark owners who have contributed to the success through their voluntary support including hand watering in periods of sustained drought. Particular thanks to Virginia Berger who guided development of our gardens for well over a decade and more recently Megan Pearson for continuing that effort.

Needless to say, the original Landmark grounds and garden architect, James Pfeiffer, is delighted with the recognition. We look forward to his continued input developing the next 20 Year Landmark Grounds and Garden plan which commences on 19 January 2022.

Let's all celebrate a great outcome.
