

Landmark Apartments - Security Patrols

Dear Residents

Crime across Canberra is on the rise with private homes and multi-unit complexes being targeted by thieves.

Landmark is not immune and has suffered two illegal entries in the past 8 weeks as well as several thwarted attempts.

Whenever a break in occurs it is investigated, the method of entry identified, footage supplied to police and any building works required to prevent a repeat are undertaken if possible.

With audits, resident notices, advice and building improvements, security is always an active concern in Landmarks management.

In addition to the existing security protocols the Executive Committee have decided to implement nightly patrols by a local security company – Blackhawk Logistics, to improve building penetration resistance.

Blackhawk currently supply Landmark with static guards as required.

Nightly security patrols will be commencing shortly.

Please be aware that upon patrol commencement there will be uniformed security personnel on site both in vehicles and on foot.

The patrol will be performed nightly involving drive throughs and foot patrols of the entire complex, patrol timings will vary.

Kind regards
Canberra Strata
